#### RICHEST MINE IN SOUTHWEST

(Continued from Page One) Keystone a Steady Producer

Shipments of ore from the Keystone nine to the Old Dominion smelter continue, the daily tonnage being forty tons or better per day. The usual force of miners is employed and development work is well ahead of ore requirements. there now being ore blocked out for six months at the present rate of stoping. All the mine workings show abus dance of ore.

#### Queen's Rich Showing

Parties arriving from Superior during the past week have all brought good reports of the Queen mine, owned and operated by Globe people. There is a force of sixteen men employed under Superintendent Joseph W. Bandhauer and work is carried on in four levels. The showing in the Queen mine is said to be phenomenal, the ore being extremely rich in copper and silver. In a stope opened on the third level there is a vein of copper-silver glance varying in width from four inches to three feet, that runs 61 to 68 per cent copper, 700 to 800 ounces silver and one ounce in AGAIN MAKES GOOD gold to the ton. Two carloads of this ore has been sacked and was being hauled to Florence for shipment. It and performance of the Columbia Comic ing. This is an old-time favorite among treatment. Three cars of carbonate for his support to the movement to give ore assaying 20 per cent were also ready operettas of the class that never grow for shipment. The carbonate vein on the first and second levels averages from eighteen inches to six feet in width and the high copper value is very evenly His facile, clean-cut comedy methods carries some silver. All the ore taken have won him a palpable popularity out thus far has come from drifts, crossents and upraises, in the course of depreciates his lines and gets them off velopment, and there has been no reguwith a risible nonchalance that seldom lar stoping. It is expected that the Queen company will be able to pay a ompany who makes the most of his dividend by July 1 next and have a good reserve fund in its treasury to part and he won many admirers both town since Monday, returned to Clifton evenings with his sweet, resonant tenor. carry on development and equip the mine with machinery. Speaking of tastefulness, there were

"CLOCK TALK"

Josh Billings once said:

"Tell the truth in all your ads, and you will get bizness." We thoroughly believe in

this idea and can therefore state that we have a clock proposition that should interest every merchant and professional man in Globe. If you have a clock in your office or store that does not

give satisfaction drop us a postal or if you haven't a clock let us know and we will make you the following offer:

1. Place a good reliable regulator worth \$37.50 in your office or store.

2. We will see that the clock is wound, regulated and kept in perfect order continuously.

3. You pay for the clock at the rate of \$2.50 a month and at the expiration of fifteen months the clock is yours.

4. We continue to care for the clock after it is paid for without further charges. Twelve of these clocks have been sold. Can we put you

down for an oak or cherry? Let us know at once.
